### DETAILED ACTION

This Office action is in response to Applicant's request for continued examination filed on June 29, 2005. Claims 34, 40, and 46-64 are presented for further examination.

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 34, 40, and 46-64 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In considering independent claims 34, 53, and 59, each claim requires "forwarding the message body and *information regarding the identify and type of the message attachment to a wireless mobile communications device.*" However, the original specification and claims filed in application 09/087623 which Applicant claims priority to, fails to even mention or allude to forwarding *information regarding the identify and type of the message attachment to a wireless mobile communications device.*

In a telephone interview on 9/12/2005 with Applicant's representative, David Cochran, Mr. Cochran admitted that 112 1<sup>st</sup> written description support does not exist in the originally filed application 09/087623 for the limitation "forwarding the message body and *information*

Art Unit: 2153

*regarding the identify and type of the message attachment to a wireless mobile communications device."* In the interest of furthering prosecution this action is made NON-FINAL to give Applicant time to file a proper amendment where 1) this Application is changed to a continuation-in-part with the current claims and a priority date of 2/13/2001 or 2) this application remains a divisional with a priority date of 5/29/1998 and the above identified limitation is removed.

### ***Prior Art***

2. Applicant's amendments have overcome the prior art applied in the claim rejections given in the previous office action with a priority date of 5/29/1998. However, the claims are not allowable at this time because of the 35 USC 112 rejections discussed above.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
